Drs. R. & J. HUNTER, PHYSICIANS for APPROTIONS of the THEOAT and LUNGS. Office No. 332 Broadway. Hours of consultation 9 a. m. to 5 p. m.

Drs. R. & J. HUNTER devote their whole attention to the treatment of Affections or Diseases of the Throat, Lungs and Heart in applying their undivided efforts to this important apacisity in medicine, they have been stimulated to act not only by the calm indifference with which general practitioners regarded the terrible mortality and suffering attending Throat 25 cents per bottle. and Lung Diseases, but also by the muarkable successes which followed the direct and local treatment so largely adwocated and practiced by Drs. Hunter years since.

It is but just to remind the people of New-York, that during those years when the practice of Drs. Hunter was so great

ing those years when the practice of Drs. Hunter was so great as to bresk down their own health by the close office confinement teckdent thereto, the mortakity from Consemption, as shown by the City Impector's Rooks, diminished upward of thirty per cent! Such tacts as these defy cavil. In re-establishing the practice agein in New-York, Drs. Hunter are happy to be soluto refer to many prominent citisans who retain the benefits they derived years ago from the direct treatment of their cases—in Catarrah—Bronchitis—Consumption—Asthma, &c., by Inhalstions and such other means as were prescribed for them on the principle of direct and local treatment. Many others of more recent experience can add their testiment. Many others of more recent experience can add their testiment in the treatment. Drs. Flunter thiss it right to direct attention to these facts as encausagement for those who may feel disposed to consult them—and whose condition of health requires their services.

A FAMILY QUARREL .- We met a friend the other evening leaving his home apparently intent on mischief, and had the curiosity to sak him what was up. "I have had," said he, "the biggest kind of a row with my wife, which grew out of my bringing home a new Har which she did n't like, and to sell the truth, I did not like the hat myself, though I would n't give in. She would have it that I ought to have bought it from KNOX, of No. 212 Broadway." We assured him that his wife was right, and prevailed on him to return, kies her, and premise to buy his HATS in future from KNOX.

DISEASES OF THE EYE, EAR AND THROAT, CATARRH CURED

DR. VON EISENBERG:

NEW TESTIMONY.

sace of the Ear, with his new Mode of Treatment."

No. 6 Messerole-av., Greenpoint, L. L.

When Houston-at., New York, Feb. 9, 1863.
I have been completely deef in one ear, and partially so in the other, for above seventeen yoars, with a disagreeable discharge from both ears, combined with continual rumbling noise in the head, for which I have been treated by a most eminent practitioner in the city without the slightest relief. I consolited Dr. Von Etsenberg, but I must candidly say that I had no faith in his success when I did so. It is therefore due to Dr. Von Etsenberg, to acknowledge that I am entirely cured; also, that he dis, layed that skill and knowledge which have procured for him such an unitvaled reputation. As I have had an opportunity of comparing his mode of treatment with that of others, I can truly state that it is not only superior, but the principles which direct his mode of restoring the bearing are, in my opinion, certain.

New York Eds. 2019.

Ngw-York, July 19, 1862.

This certifies that my mother has been for some time afflicted with partial deafness, suffering from pain, and rumbling noises in toa head, together with other indications of a total loss of hearing. Dr. Von Eisenberg removed from her ears a great quantity of matter, together with conquisted blood, reclieving her instantaneously, and all without pain. It is with greatful thanks that I give this testimony to his skill. CARROLL J. POST, No. 28 South-st.

J. E. Von Eisenberg, M. D.—Bark Doctors: I have been afflicted with total deafness, and was induced to pay you a wist. No one can imagine my desight when, after one operation, my hearing was suddenly, and without pain restored to me, for which I leel very graterial. After being totally deafsement shut out from the pleasure of using so mecessary a sense—to have it returned, and to hear so distinctly, reflects great credit on you for the immease amount of skill you possess. I beg to thank you for what I can so truly appreciate. I am, Sir, your obedient servant. EDWARD TEMPLE HARRISON.

NEW-York, Murch 20, 1953.

This is to certify, that I have suffered from very severe CHRONIC CATARRH, with a dull heaviness in the head. I felt my nece completely stopped up, accompanied by continual corness of the throat, the chils steading over me with occasional bot flushes, a great tightness of the chest and pain, common as that every one thought it was consumption. Having neared of the great curve personned by Dr. Von Lieusherg, I consulted him with bot little hope of a cure, I am now happy to be enabled to said my testimenial to the great mini-but afready in the Doctor's possession, as to his scienting but afready in the Doctor's possession, as to his scienting case that skin and knowledge which have grounded for him so great a reputation. I am so entirely restored to prifect health that I do most shockerly recommend all sufferers from CHRONIC CATARRH and SORE THROAT to apply at once to Dr. Von Eisenberg with a certainty of being cured.

HILTON'S INSOLUBLE CEMENT Is of more general practical utility than any invention now before the public. It has been thoroughly tested during the last two years by practical men, and pronounced by sit to be SUPERIOR to any ADHESIVE PREPARATION KNOWN.

HILTON'S INSOLUBLE CEMENT
Is a new thing, and the result of years of study. Its combit
tion is on SCIENTIFIC PRINCIPLES, or no circums ances of change of temperature will its corrupt or emit any offensive amell.

BOOT AND SHOE MANUFACTURERS, using machines, will find it the best article known for cement-ing the channels, as It works without delay, is not effected by any change of temperature. JEWELERS
will find it sufficiently adhesive for their use, as had been

IT IS ESPECIALLY ADAPTED TO LEATHER, and we claim as an especial merit, that it sticks Patches and Linings to Boots and Shoes sufficiently strong without stitching.
